"Unquestionably the best sustained work of the kind Harper's New Monthly Magazine.

Critical Not ces of the Press. The most popular Monthly in the world .-

> We must refer in terms of eulogy to the high tone and varied excellences of HARPER'S MAGA-ZINE-a journal with a monthly circulation of about 170,000 copies—in whose pages are to be found some of the choicest light and general reading of the day. We speak of this work as an evidence of the culture of the American pe ple; and the popularity it has acquired is merited. Each Number contains fully 144 pages reading-matter appropriately illustrated with good wood-cuts; and it combines in itsel the racy monthly and the more philosophical quarterly, blended with the best features of the daily journal. It has great power in the dis-semination of a love of pure literature.—Trub ner's Guide to American Literature, London. We can account for its success only by the imple fact that it meets precisely the popular
